PROFESSIONAL EXPERIENCE

TEAM LEAD / SENIOR FULL-STACK & WORDPRESS DEVELOPER

Dev Origins | Remote / International Projects

- Led modern website and web-application projects for international clients across different industries.
- Worked as a Team Lead, coordinating development tasks, reviewing implementations, solving technical challenges, and supporting team members.
- Developed custom solutions using WordPress, PHP, Laravel, React.js, Next.js, JavaScript, HTML, and CSS.
- Translated Figma UI/UX designs and prototypes into responsive, production-ready websites and applications.
- Built custom WordPress themes, plugins, CPTs, ACF solutions, dynamic templates, and advanced functionality.
- Worked directly with international clients to understand requirements, recommend technical solutions, and deliver projects.

- Managed development workflows from planning through testing, debugging, staging, and deployment.
- Provided technical guidance on architecture, reusable components, performance, responsiveness, SEO, and maintainability.

WORDPRESS / WEB DEVELOPER

FuzionDev | Remote / International Projects

- Developed and maintained professional WordPress websites for agency clients and international businesses.
- Built websites using WordPress, Bricks Builder, Elementor, ACF, PHP, JavaScript, HTML, and CSS.
- Converted Figma designs and website references into responsive, modern, user-friendly WordPress websites.
- Created reusable templates and components to improve development speed, consistency, and maintainability.
- Customized themes, plugins, templates, forms, and dynamic functionality according to client requirements.
- Worked on redesigns, performance optimization, troubleshooting, responsive improvements, and new feature development.
- Collaborated with designers, developers, project managers, and clients throughout the development lifecycle.

WORDPRESS / WEB DEVELOPER

Timplicity | Remote / International Projects

- Developed modern WordPress websites using Gutenberg, Bricks Builder, Etch, and Oxygen Builder.
- Built reusable layouts, templates, components, and dynamic content structures for scalable WordPress projects.
- Customized WordPress functionality using PHP, JavaScript, HTML, CSS, ACF, CPTs, hooks, and filters.
- Implemented modern UI/UX designs and converted design concepts into responsive production websites.
- Used AI-assisted development and AI vibe-coding workflows to accelerate prototyping, development, debugging, and implementation while maintaining code quality.
- Troubleshot WordPress issues involving layouts, builders, plugins, JavaScript, CSS, responsiveness, and third-party integrations.
- Worked on website optimization, performance improvements, and cross-browser compatibility.

SELECTED PROJECTS

Fiinu / Customer Portal — Advanced WordPress customer portal with custom authentication, ACF, WS Form workflows, automated NIK generation, document processing, customer management, and API/PDF integrations.

Typing-Fast.com — WordPress content platform focused on technical SEO, structured content, performance, Google Search Console, and AdSense readiness.

Business & Service Websites — Modern websites for international businesses and agencies, including service businesses, real estate, home services, eCommerce, and professional organizations.

LEADERSHIP & STRENGTHS

- Team leadership, task coordination, technical decision-making, and development reviews.
- Strong client communication with international teams and stakeholders.
- Problem solving, debugging, architecture planning, and delivery ownership.
- Ability to translate business requirements and Figma designs into practical technical solutions.
- Focus on clean implementation, performance, accessibility, responsiveness, SEO, and maintainability.
